

ITW PASLODE

» The Paslode F-350P PowerMaster Pro 30-degree framing nailer increases productivity with features like a quick two-step rear-load magazine that holds 88 fasteners. At 7.9 pounds, this new model is 1/2 pound lighter than its predecessor. Its in-line magazine provides optimal balance and control and a thumb wheel depth-of-drive provides fast, tool-free adjustment. It fires 30-degree paper-collated RoundDrive fasteners from 2 to 3.25 inches in length.

FESTOOL

» Festool USA and Festool Canada introduce a complete line of premium hand sanding products for a broad range of applications. Available in sheets, blocks, sponges, rolls and pads, this premium hand sanding line was developed in accordance with the principles of machine abrasives — with enormous material removal capacity and a long service life thanks to special fused aluminum oxide and synthetic resin bonded grits.

FALLTECH

» FallTech's Contractor+ family of harnesses now offers a more supportive, secure and sturdy fit while adding functional elements for all day comfort to meet the demanding needs of workers. Upgrades include new chest slides with integrated lanyard keepers for a lower profile and easier attachment points for lanyard connectors and a stiffer waist belt for improved longevity. The waist pad now includes belt loops and is sewn into the torso straps, keeping the waist pad from slipping. Standard features also include a breathable padded air mesh shoulder yoke with a non-slip dorsal D-ring adjustment.

WEBER MT

» Delivering a centrifugal force of 5,620 pounds, the Weber MT model CR2 reversible soil compactor features a Honda GX160 engine that produces 4.9 maximum horsepower. The CR2 has a working speed of 0-69 feet per minute and has variable hydraulic shifting for superior accuracy even in challenging areas. An optional water sprinkler system enables it to operate on asphalt and pavers.

HITACHI

» Hitachi Power Tools' new ultra-efficient WR25SE 1-inch square drive AC brushless impact wrench features Hitachi's Aluminum Housing Body (AHB) that delivers impressive internal and external durability. It operates on either AC or DC power, has an impact rate of 1,500 ipm and weighs 17 pounds. It delivers superior performance when powered by a generator due to an internal inverter circuit that regulates uneven power supply for ultimate job site convenience.

ROCKLER

» Rockler Woodworking and Hardware has developed a new Dust Right shop vacuum hose reel. It mounts to the wall and holds up to 40 feet of standard 1 1/2-inch-diameter shop vacuum hose (sold separately) — enough to reach all corners of a two-car garage. Made from steel and durable plastic, the hose reel features a tensioning knob that allows the user to control the rate of unwind. A port allows easy connection to a shop vacuum or dust separator with a 2 1/2-inch hose.

BOSCH

» New from Bosch, the extremely versatile GSR12V-15 FC FlexiClick 12V 5-in-1 drill/driver system is a compact 12-volt tool with a 3/8-inch chuck that offers easy change for screw driving, drilling, right-angle driving and excenter driving close to edges. The right-angle and excenter attachments rotate into 16 different positions with one hand. The right-angle attachment ensures users can get into even the smallest spaces.

DRILLCO CUTTING TOOLS

» These new carbide tipped annular cutters from Drillco Cutting Tools Inc. deliver reamed-quality, burr-free holes and virtually eliminate the need for pilot holes or step drills. Joining Drillco's existing line of cutters, these new cutters are available in 1 3/8- and 2-inch depths of cut, with diameters up to 2 3/8 inches. Larger diameters and cutters with greater depths are available as specials with short lead times.

SIMPSON STRONG-TIE

» The new MPBZ moment post base for 4x4 or 6x6 construction is the first product of its kind to provide moment resistance for wooden columns or posts. This innovation reduces the need for knee bracing. The patent-pending MPBZ is ideal for freestanding structures such as carports, fences and decks. Its overlapping sleeve design encapsulates the post and keeps it from rotating around its base.

Rockhard Tools, Inc., in business for more than 60 years, and recognized as a leading manufacturer and distributor of hand tools and plastic fasteners, is seeking a **National Territory Sales Manager** for a newly developed line of quality professional hand tools. This position is responsible for the introduction, and demo of the new products to both new and existing customers as well as achievement of the sales plan. Qualified candidates should be familiar with a variety of concepts, practices and procedures as they relate to the sales as well as distribution of product to industry professionals and retailers. The position relies on extensive sales experience and judgment to plan and accomplish goals. A proven track record of prior goal achievement showing solid increases in outside sales and customer growth is required.

Our brand is growing; however, our commitment remains the same... to provide our customers with the highest quality of products available with world class customer service.

RIDGID

» New digital recording monitors from RIDGID will result in faster and more efficient drain line inspections and reporting. The SeeSnake CS6x (shown) and CS6xPak monitors feature Wi-Fi and Bluetooth, which allow plumbing contractors to quickly see drain line conditions and instantly share findings with customers. Each can stream and record inspections to an iOS or Android phone or tablet using the free HQx Live companion app.
